Dear FCC:

I am a single mother of one and I knew that having a cell phone was a neccessity in todays way of living. I went and purchased a TracFone knowing that this is affordable for me. Increasing the cost of the service will be even harder on me.... as it already is I squeak by managing to but my minutes when more are required....Please reconsider your proposal.....

Sincerely,

Lisa Kennedy

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
